## DETAILED ACTION

### ***Claim Rejections – 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

1. Claims 1-12 are rejected under 35 U.S.C. 102(e) as being anticipated by Sarradin (US 6,832,718).
2. In regards to claims 1, 4, 7, and 10, Sarradin discloses a method and system for effecting user payment for a purchase by means of a mobile station (mobile terminal 1) of the user in a telecommunication system that includes a telephone network (public base station 14) to which the mobile station is connected via a wireless communication link (mobile telephony network 15), a network application (GSM) connected to the telephone network and a mobile station application, comprising the steps of: generating in the network application a user profile from modes of payment employed by the user; generating by means of the network application, when the mobile station user is to make a purchase payment, a mode of payment message based on the user profile for transmission to the mobile station; presenting, on the mobile station, user-selectable payment alternatives; and generating a response message based on user input in

response to the presented payment alternatives and sending the response message to the network application (col. 3 lines 35-52 and col. 4-5 lines 53-7).

3. In regards to claims 2 and 8, Sarradin discloses a method and system, wherein the user-selectable payment alternatives presented on the mobile station are defined in the mode of payment message (col. 4-5 lines 66-7).

4. In regards to claims 3 and 9, Sarradin discloses a method and system, further comprising the step of defining, for inclusion in the mode of payment method, a control code for identifying the network application (col. 3 lines 48-52 and col. 4 lines 1-10).

5. In regards to claims 5, 6, 11, and 12, Sarradin discloses a method, further comprising the step of requesting, by the network application, additional information from the mobile station by means of which a payment is to be effected (col. 4 lines 31-52).

### ***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Harris et al (US 6,331,972) teach a personal data storage and transaction device system and method.
